

D308 Signed APK Evidence

Student Name: Julian Beltran

Course: Mobile Application Development (Android) – D308

Project: Vacation Planner Application

Signed APK Generation Evidence

This document provides evidence that a signed APK deployment package was generated for the Vacation Planner mobile application.

Figure 1: Generate Signed APK Configuration

This screenshot demonstrates the signed APK configuration screen, including the keystore path, alias, and signing credentials.

Screenshot:

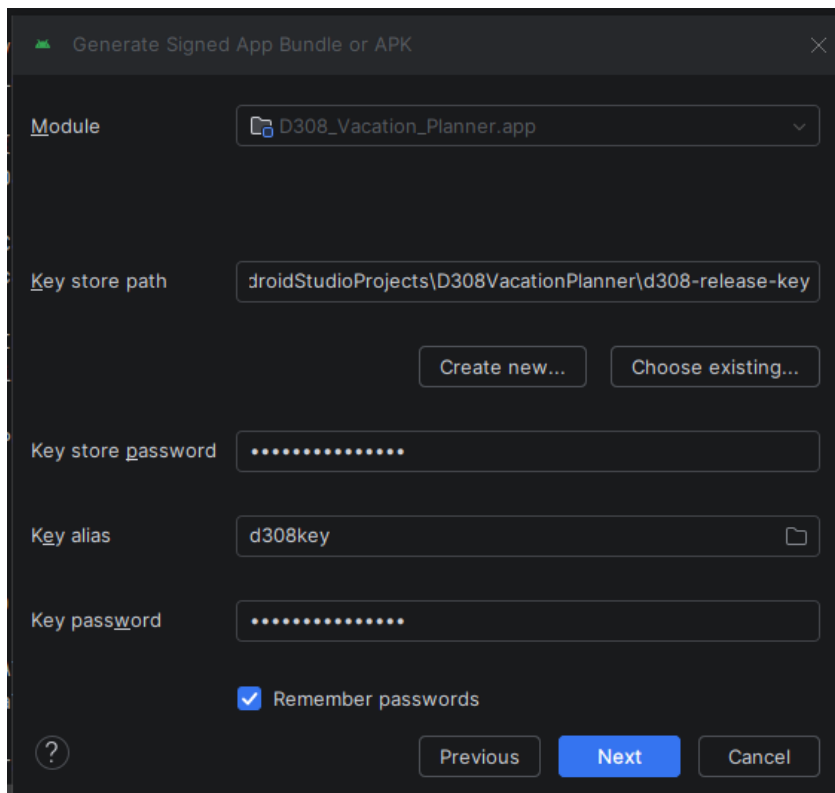

Figure 2: Release Build Configuration

This screenshot shows how to select the release build variant to generate the signed APK deployment package.

Screenshot:

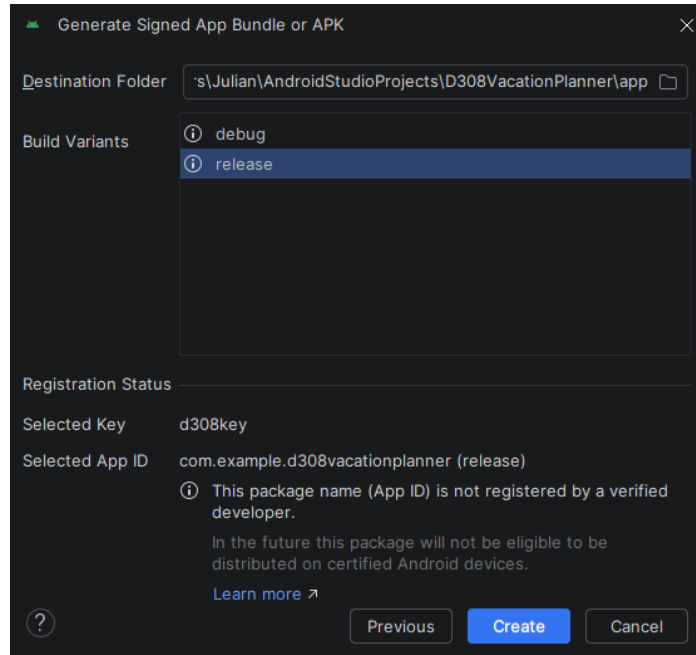

Figure 3: Successful APK Build

This screenshot demonstrates the successful generation of the signed APK in Android Studio.

Screenshot:

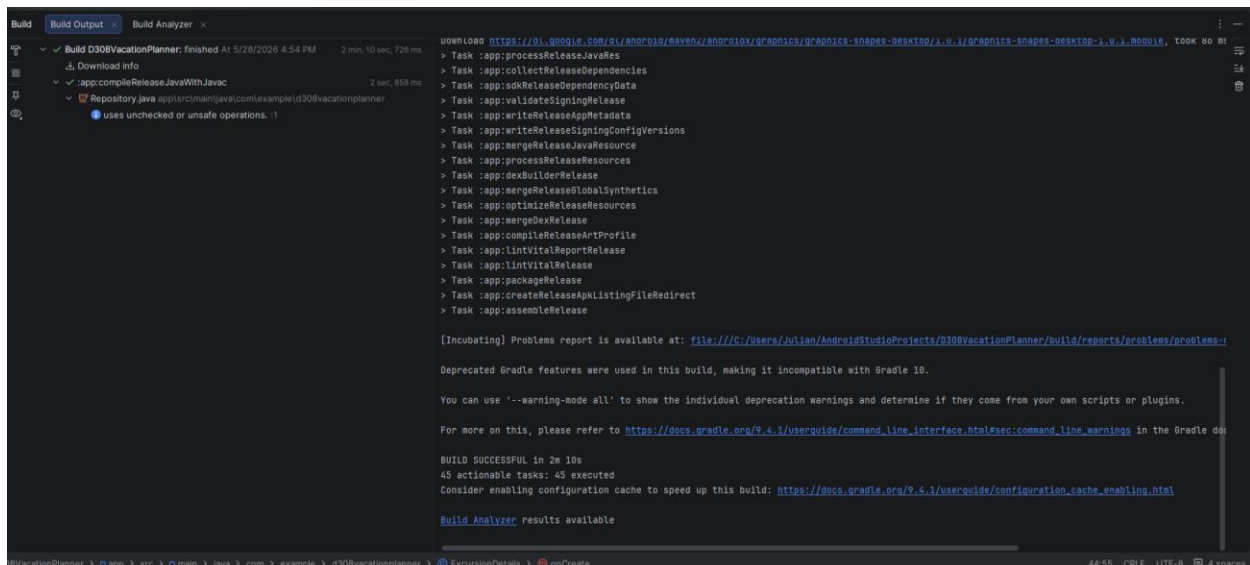

Figure 4: Generated APK File

This screenshot demonstrates the generated APK deployment package stored in the project directory.
